

A Reply and Information - Complaint against Roddy Dunlop QC.

To: Roddy Dunlop QC

Copy to: Mr. James Casey (prisoner number 14704) (James Casey is innocent)

From: Tom Muirhead of the Fair Trial Project (Registered Charity SCO48283).

Subject: A reply to Roddy Dunlop QC's reply to the original complaint.

1. I left Barlinnie prison on Friday the 7th of May quite depressed. I had spent the last two hours in a very productive meeting with Mr. James Casey (prison number 14704). Mr. Casey is innocent. He has never had a fair trial and on top of all that he is an extremely intelligent and kind person. He has asked me to make complaints and raise actions against the whole Scottish legal profession for their criminal activities.
2. From now on this complaint as well as the original complaint are from Mr. Casey. I and the Fair Trial Project are only a conduit for Mr. Casey's complaints.
3. Mr. Casey contends that you have not answered any of the allegations. To be clear, he is saying that you have a duty to a) your clients; b) the court; and c) the public to disclose any matter that may call into question the fairness of a trial or hearing. There was a list of some of the matters that you have not disclosed. It is criminal and civil fraud not to disclose these matters. Why have you not answered?
4. Mr. Casey is alleging that you are conspiring to commit murder. You are fully aware of links between advocates, solicitor advocates and solicitors to the judges. You know, or should know, that all these links a) must be disclosed; b) lead to the possibility of subconscious bias. Your failure to disclose these links, even ones that are not your own, is conspiracy to murder.
5. The reasons for this are as follows - The Scottish Prison Service report suicides in Scottish prisons every year. If these prisoners got a fair trial, then this is a tragic statistic. If they did

not, then these suicides are unlawful killings. 'But for' the unlawful prosecution and lack of a fair trial, the prisoners would not be in prison to commit suicide.

6. Mr. Casey contends that your failure to disclose your own links, and those of others, has led to people not getting a fair trial. You are fully aware that some of these people will, due to the anxiety and frustration of not getting a fair trial, commit suicide. You have conspired to create this situation; you have conspired to commit murder.
7. One example that you and everyone knows about is that of Lord Carloway being the lead singer in the Faculty of Advocates band. Do you deny that the possibility of bias arises every time a member of the band, someone who has booked the band or someone who has partied with the band, appears in front of Lord Carloway?
8. There are other questions that Mr. Casey requires you to answer. Do you deny that the Faculty of Advocates (The Faculty) is a criminal organisation? Do you deny that the Faculty has many links to the judges? Do you deny that a judge who is a non-practising member of the Faculty benefits financially, by a tiny amount, each time a practising member appears in front of them? Do you deny that a judge is automatically disqualified if they have a financial interest in a case?
9. See the paper, <https://fairtrialproject.org/why-the-faculty-of-advocates-is-a-criminal-organisation/> for more information on this.
10. Mr. Casey is making these complaints about you as you are a high-profile advocate. He contends that you know about the criminality of the Faculty and Scotland's judges and have ignored it for your personal gain.

Tom Muirhead on behalf of James Casey, The Fair Trial Project (<https://fairtrialproject.org/>)
